## H.M.S. HURON Again VICTORIOUS

Sank Two Heavily Armed German Trawlers In Sharp Night Encounter Off French Coast — Third One Severely Damaged And May Have Blown Up — It Is Getting To Be An Old Story For Grimsby Boy.

Ottawa officially announced on Dominion Day morning that Lieut.-Commander H. S. Rayner, D.S.C., had been promoted to the rank of Commander.

London, June 30 — In a sharp night encounter in the rain-soaked darkness of St. Malo, the Canadian destroyer Huron, under the command of Lieut.-Cmdr. H. S. Rayner, D.S.C., R.C.N., of Grimsby, Ont., in company with H.M.S. Eskimo, sank two heavily armed German trawlers and severely damaged another which was later believed to have been blown up and sunk.

The action was announced briefly by Allied invasion headquarters earlier this week.

The Eskimo suffered light casualties in the action which flared up at 12.55 a.m., while the Huron, companion of H.M.C.S. Haida in many Channel fights, came out unscathed.

Once contact was made, the three enemy craft were illuminated by star shells from the Huron and the Eskimo poured home her first salvo. The two Canadian Tribal-class destroyers immediately followed suit, scoring four direct hits with the first six tries.

Eskimo officers said, "The Huron's gunnery was splendid. . . She set the enemy ship blazing in a short time."

Meanwhile the Eskimo engaged another enemy ship and pounded her heavily. But the Tribals were uncomfortably close to the enemy coast and as flashes from heavy shore batteries became visible the ships sheered off.

Coming in again, the Huron found her previous target, now well alight, and sent it to the bottom with a few salvos. Meanwhile the Eskimo was courting trouble. As she pounded the second German ship a third came up. The Royal Navy craft ignored this threat, finished the job of blowing the trawler out of the water, with the Huron's help, and then chased the third ship, which fled.

As the Huron stormed after the fleeing German ship the Canadians saw a brilliant flash from the direction the trawler had taken. Later they passed the hulk of an abandoned ship and reported their belief that the trawler blew up—making a score of three sighted, three sunk.

Cdr. Rayner, an old hand accustomed to action, won the D.S.C. while shipping the veteran R.C.N. destroyer St. Laurent, known through the navy as the "Belly Band."

With him were equally experienced officers. His first lieutenant was Lieut. "Pat" Budge, R.C.N., of Halifax, a graduate of the lower deck who served in the warships Ottawa and Morel before going to the Huron. The gunnery officer was Lieut. R. E. Scates, of Victoria, who when praised for his excellent shooting said: "We did our best."

## Receives Letter From Holland

Mr. John Vooges has received a letter from his home in Amsterdam, Holland, advising him of the death of his eldest brother. The letter was written in December and came through the International Red Cross, Switzerland, arriving here June 24th.

Mr. Vooges is the only member of his family in this country, and this is the first letter received from his homeland since 1940.

## Awarded D.F.C.

F.O. O. W. FONGER

R.C.A.F. headquarters, Ottawa, announced on Monday that Flying Officer O. W. Fonger, youngest son of ex-Reeve Haliburton and the late Mrs. Fonger, former Grimsby residents, had been awarded the Distinguished Flying Cross. "Dick" Fonger was born in Niagara Falls but came to Grimsby to reside when a small boy and was educated in Grimsby schools. He attended Queen's University of Toronto and went overseas in the winter of 1942. His brother Alfred has only recently returned from overseas duty with the L. & W. Regt. His citation said he had "completed in various capacities many successful operations against the enemy in which he displayed skill, fortitude and devotion to duty."

## Wise Old Owls Scare Starlings

Woolverton Cherry Crop Saved By Use Of Stuffed Birds Freak Advertisement Appeared Last Year.

WANTED — Large sized stuffed owl, immediately. Phone 57 or 2183.

In the June 24th issue of The Independent, 1943, the above advertisement appeared in heavy type, in the Classified columns.

It was Harold Woolverton who was doing the advertising. It was Lions Club carnival time and we naturally thought that he had something under his hat for a carnival feature, so paid but slight attention to such a freak advertisement. As it turns out the owl was not for carnival purposes but for work of a more serious nature.

Today that owl and three more of its kind are to be found safely anchored on the branches of cherry trees in Mr. Woolverton's orchard. To date they have proved the greatest protection for the cherry crop, from Starlings, that has been invented.

There are on the Woolverton farm fifteen of the finest sweet cherry trees, in a row, in he found anywhere in the district. On a Starling comes near the orchard on neighbouring farms the birds are playing havoc with the crop.

We would suggest "Pat" the manufacturer of six, ad owls would be a good side line for "Bill" Clare to add to his toy making business.

## Figure This Out

Whoever the following means, if anything like it is:  
Roosevelt—Born 1882; took office 1933; years in office, 11; present age, 62, total 3,888.  
Churchill—Born, 1874; took office 1940; years in office, 4; present age, 70; total, 3,888.  
Stalin—Born, 1879; took office, 1924; years in office, 20; age, 65; total, 3,885.  
Hitler—Born, 1889; took office, 1933; years in office, 11; age, 55; total, 3,888.  
Divide the totals by 2, and the answer is 1944.  
(Go to work on the above, and if you can't find a satisfactory answer, look on the back page of this issue.)

## COLOSSAL CARNIVAL COMING

Presented here is a clever caricature sketch from the drawing board of that world famous artist Leopold Penaninkski, of Dave Bell, Purveyor of Publicity for the Grimsby Lions Club Carnival. Dave says "it will be the most colossal carnival of fun and frolic ever presented by the Lions and as well, a most profitable one for a whole lot of people who win valuable prizes in the grand drawings."

Thursday and Friday nights of next week—July 13 and 14—will be the nights on which you can cut up high jinks to your heart's content. Once more you can be a kid with the kids and have a whale of a lot of fun. Ride the Merry-go-Round and the Ferris Wheel. Play Bingo. Try your luck on the penny game, the Darts and with the Over and Under. Then if you want to stock up the larder take a chance on the Grocery and Merchandise Wheel, which as usual will be in charge of the Girls from the White Elephant Shop. There will be a large refreshment stand on the grounds loaded to the gunwhales with pop-soda and hot dogs.

Latest reports from the Bell Publicity Bureau is to the effect that the Bingo game will be the largest one ever set up for play in the Fruit Belt. It will be double the size of anything ever attempted before at an outside carnival. There will be no squabbling over double winners for every time a double Bingo turns up there will be double prizes.

On both nights of the Big Show Grimsby High School Cadets Bugle Band will parade the downtown streets and will enliven proceedings on the grounds.

An appeal has been made by the Carnival Ticket Sale Committee to every citizen in Grimsby, who has not purchased a book of tickets to do so at once. There are many valuable prizes and in addition every book sold brings happiness to some one in the District. Ticket sales to date have been only fair and the support of every person in this community is necessary to make this year's Carnival a success.

A report on Sales from Team Captains, who are doing a grand job, is as follows:-

C. A. Farrell .....	85% of objective	A. C. Price .....	35% of objective
A. R. Globe .....	63% of objective	C. D. Millyard .....	35% of objective
Father O'Donnell .....	42% of objective	W. Hewson .....	35% of objective
D. E. Anderson .....	35% of objective	Fred Jewson .....	35% of objective

It is the objective of the Lions Club that all the above teams reach their goal of 100%. It is, therefore, requested that any citizens who have not purchased their tickets, contact any of the above Team Captains, who will be delighted to oblige with a book of tickets.

Let's make this Carnival the best in Lions' history.

## Good Bed Sheets \$40 a Pair

While We Pay 20c a Pound For Green Beans Our English Cousins Pay \$7.00.

Grimsby people who are always howling about the high prices of foodstuffs and other necessities of life, should spend a few months in England and probably they would appreciate the more the cheapness of things at home.

Mrs. Jean Millyard has just received a letter from a friend in England and a few of the prices will astonish you. Staple foodstuffs are very reasonable because they are under strict control, but the choicer viands, of which we have plenty, are almost unobtainable and the prices are sky high.

Green beans \$7. a lb. asparagus \$10. a bunch; mushrooms \$4. and \$5. a lb.; melons \$15. each; the very odd pineapple \$25 to \$30. each.

Household goods are scarce and high. Ordinary pair of sheets are \$20, while a real nice pair are \$40. What a difference that 3,000 miles of ocean and land makes.

## Nine More Wanted

Paton, N.J. July 2—Ten Paterson men who "got tired sitting around waiting" have bought a barber shop all their own. They paid Joseph \$1,500 for his shop and will pay him \$40 a week to run the shop exclusively for them "minus high-pressure salesmanship and chatter."

N.B.—Nine other men are now wanted to join with the editor to buy one of the local tonorial parlors on the same plan.

## Births

TUFFORD—At Mount Hamilton Hospital, on Saturday, July 1, 1944, to Trooper and Mrs. J. W. Tufford, 81 Paton Street, Grimsby, a daughter (Valerie Joan).

## Summer Preacher

REV. A. L. CHARLES, D.D., of St. Mark's church, Brooklyn, N.Y., and well known Grimsby Beach summer resident, will be the preacher at Central Presbyterian church, Hamilton for the next six Sunday mornings.

## New Type Parlor

The "parlor" used to be the best room in the house that you allicked up to entertain the minister. Then parlors sort of went out of date until the girls found that just plain "barber shops" weren't ritzy enough places in which to lose their locks and acquire the very temporary "permanent wave."

So "beauty parlors" made their appearance. On the west coast of the U.S. they now boast another kind of parlor.

It is the "dairy parlor."

The dairy parlor is a room where they take the cows to be milked. It is an extra refinement over this country where cows are still milked in their sleeping quarters and the premises are known by the unromantic name of "cow stables."

## Hydro Offices Are Redecorated

Ceiling In White — Walls In Three Tone Grey — New Indirect Lighting Fixtures Installed.

Grimsby Hydro offices of today are without a doubt the most decorated and best lighted offices in the Fruit Belt. Compared to the dark, dingy, crowded offices of a few years ago they are in the King's Palace class.

Ontario Hydro Power Commission have just completed the work. The ceiling is in ivory white and the walls and wood-work finished in three tone grey.

New indirect lighting fixtures have been installed and when in use give the office a bright as day appearance which greatly facilitates the work of the office staff, and is a pleasing picture to the customer stepping in from the outside.

## Keep Awa, From Paton Street

War Has Been Declared By Victory Gardeners—"Red" Graham Defeated In Potato Battle.

The war is on. The Battle of Paton street is under way. War clouds have been gathering ever since Victory garden planting commenced in the Spring.

The first shots were fired last week when "Red" Graham and Syd. Clay both dug new potatoes on the same day. Syd's were planted three weeks after "Red's". A beautiful mass of the Irish fruit were dug up by "The Bishop" but Syd turned out a marvellous mess. His were bigger than "Red's" and more of them to a hill.

Those Paton street gardens are a good place to keep away from. You are liable to be the innocent stopper of a flying garden tool.

## OUTLOOK IS Bright FOR PEACHES

Department Of Agriculture Estimates Crop Will Show An Increase Of 136 Per Cent — Yield Still 12 Per Cent Below The Five Year Average. And 36 Per Cent Below 1942 — Peas 35 Per Cent Of Crop.

An increase of 136 per cent in this year's yield of peaches in the Niagara district is foreseen by the Ontario Department of Agriculture in its latest fruit and vegetable crop report. Last year's yield was exceptionally low, and the great increase predicted still would bring the yield 12 per cent. below the five-year average, and 36 per cent. below the heavy production of 1942.

There has been some irregularity in the fruit setting in Niagara this year but, generally speaking, healthy trees are expected to yield good crops. The large areas which yielded no fruit last year are in fruit this season.

An increase is also expected in the apple crop. Heavier production is looked for in Spy, McIntosh, Snow and Greening, and a decrease is likely in Baldwin, Wealthy, Stark and early varieties, with others approximately the same. There has been a very heavy growth of foliage and wood this season and the sizing of fruit is considerably advanced over last year. The blight of June drop has been troublesome in some districts.

The Niagara crop of sweet cherries shows prospect for only a slight increase over last year's relatively small yield. The sour cherry yield is expected to decrease by 16 per cent. The total cherry crop is expected to be 35 per cent. below the average for the past five years. The set in sweet cherries has been very irregular in the Niagara district.

The prospects for the pear crop are perhaps the worst of all the tree fruits; only 35 per cent. of last year's yield is expected. Bartlett's show a decrease of 60 per cent; Kieffer's, 75 per cent., and other varieties should be about the same as last year. This would mean a pear crop of only 40 per cent of the average for the last five years. In the main producing areas, the set of Bartlett's and Kieffer's is most irregular, ranging from none at all to a full crop.

Plums, too, show a decided drop, a reduction of 27 per cent. from last year's light crop being expected. The Japanese varieties show some increase. European plums are somewhat less than last year and the prune varieties are almost a failure in most sections, showing a decrease of 80 per cent.

It is expected that the raspberry crop this year will be fairly heavy, an increase of three per cent. over last year.

Strawberries this year were 42 per cent. below the average for the last five years.

The 1944 grape crop is estimated at a five per cent. increase over 1943, a slight decrease over the five-year average. In the main producing areas a two or three bunch set is seen, with vines healthy and growing rapidly.

Vegetable conditions are reported generally good. The tomato crop is expected to be 48 per cent. greater than last year and the pea crop 17 per cent. greater. A very heavy crop of corn is expected this fall and the average of this vegetable has been increased by 41 per cent. over last year.

Frank Fairborn, Jr.

**THE FATE OF UTOPIAS**

"The wisdom of the nation is very reasonably supposed to reside in parliament. What can be concluded of the lower classes of the people, when in one of the parliaments summoned by Cromwell it was seriously proposed that all the records of the Tower (of London) should be burnt, that all memory of things past should be effaced, and that the whole system of life should be commenced anew?"

That was written by Dr. Samuel Johnson about two hundred years ago. Dr. Johnson was a conservative, but it can hardly be said that he was not in sympathy with the lower classes of the people. He was wretchedly poor for the greater part of his life and his last days were spent in an alley off Fleet Street, supported by a pension.

While the Cromwellian revolution may be said to have been largely a people's movement, it was led and organized by men of the upper classes. Cromwell himself came

from the upper classes and he was not in the first place opposed to the monarchy, as such. When the fighting was over, however, he prepared to establish the Commonwealth. In his opening address to the Little Parliament he declared that the day had come on which the saints were to commence their reign upon earth. But the "saints" could not agree among themselves, and in less than two years Cromwell assumed the position of dictator, under the title of Lord Protector.

Cromwell did a good work in ridding England of a tyrannical king, but the Commonwealth failed because of fanatics who wanted to destroy everything of the past and set up an idealistic social system. It was to be a "Commonwealth of God" — the God of the Puritans. But imperfect human nature asserted itself and the Millennium did not materialize. On the death of Cromwell the Commonwealth went to pieces and England became "drunk with the excesses of the Restoration."

Such has been the fate of all attempts to sever connection with the traditions and institutions of the past and establish a brand new and idealistic order of things. As well might we expect a tree to continue to grow and bear fruit when it is cut off from its roots. There is and there cannot be any such thing as a new order. No matter how elaborate and theoretically perfect the plan may be for the organizing of human beings into a socialist system, it can never remain permanent, and it is sure to result in a reaction to a condition of society worse than the first.

Barry Pain, in "The Exiles of Foloo," written many years ago, has a message for our time and for all times in the following passage: "The societies that are to be permanent grow without plan, much as a coral island grows. The schemed Utopia never lives: it leaves no room for compromise and becomes pot-bound; it guards with wise foresight against numberless events which never happen and the unforeseen event blows in upon it and kills it."

**BRITISH HUMOUR**

On this side of the ocean one generally hears a lot of disparaging remarks about British humour. Because some do not always see eye to eye with the British on what is funny and what is not, it has been said that British people are humourless.

All through the terrible Battle of Britain and the town-destroying blitz they kept their sense of humour when they had every reason to lose it. Everyone remembers the picture of a building completely bombed out except for the door and doorstep which by some strange coincidence remained standing. The former residents had erected a sign reading "No milk today."

Another gem of a story concerned the paper-hanger in London whose shop had been gutted to the ground. He had placed a placard on the ruins reading "Professional jealousy!"

The day after the invasion, when the myth of Hitler's impregnable Atlantic Wall had been dispelled forever in the minds of free men, a prominent English daily displayed a cartoon showing our friend Mr. Schickelgruber seated behind a big desk in what was obviously a factory and telling a subordinate to "Send in the engineer who was in

charge of the Atlantic Wall construction job. I want to speak to him for a minute."

The above anecdotes are merely to point out that the British have a sense of humour that goes so deep they can retain it in the face of the most terrible calamities.

**A Prayer**

Dear Lord  
Lest I continue  
My complacent way;  
Help me to remember

As long as there is war;  
I then must

Am I worth dying for?

### Grimsby Lions Club Deserves Your Help

**We Can Buy Our Way Into a Breadline!**

History is a meek little word that covers a multitude of suffering. And only through profiting by past mistakes... will we suffer less! Remember how in the last war folks "blow" their money. Needless spending caused prices to rise... so that by 1918, the you buy today for 89¢ cost \$1.85 then; while baby's coat was compared to a similar coat at today. This was inflation and all too soon it was followed by the inevitable depression! That's why our government is determined to prevent inflation now... why there are price ceilings and other anti-inflationary measures to hold the cost of living down and keep our dollar value high. And YOU help prevent a future depression and keep your dollars high in value... every time you pass up a needless luxury... and avoid black market spending.

*Make This  
Pledge  
Today!*

I promise to give my support to keeping the cost of living down. I will buy only what I need. I will observe the ceiling whether buying or selling goods or services. I will pay off old debts, save for the future, invest in Victory Bonds and War Savings Certificates. And I will support taxes which help lower the cost of living.

### Keep Your Dollar Value High!

Published by THE BREWING INDUSTRY (ONTARIO)  
to help reveal the dangers that inflation represents for all the people of Ontario.

## Mainly For MILADY

### It's An Ill Wind

It is not often that a cyclone blows anybody good, but there's a lady in Buchanan, Mich., who thanks a recent twister for bringing her a piece of elastic which she greatly needed and which was not to be had in the local general store. The storm blew a robin's nest out of a tree in her yard. It was tragedy to the robins for the eggs were smashed, but it was a godsend to Mrs. Watson. In the nest was a nine-inch piece of elastic, none the worse for the use the birds had made of it. She is the envy of all her neighbours whose girdles have ceased to stretch.

### Can You Cook "Bombay" Duck

On a cooking quiz program, how many could define "Bombay" duck? It is a difficult question, even with the clue that it has fins, rather than wings. This type of mock duck is a small transparent smelt-like fish that is found on the coasts of southern Asia. When dried it is used as a relish for curry. Its exact name is in fact "bummalon." If there is any in Toronto it would be a real miracle. Even in that gourmet paradise, the delicatessen stores of New York, it is a rare item. They say that the taste for it, like that for oysters, has to be acquired, and at a dollar an ounce it is an expensive taste.

### Cook A Meal In No Time

Electronics, a term more familiar to high school students who study the mystery of wireless transmission than to their elders who merely turn on the radio and take what they get without asking questions, is, according to a radio corporation engineer, going to become a household term after the war. Its application will allow a housewife to play late afternoon bridge and yet serve her family a more substantial dinner than sandwiches. The engineer describes a recently perfected dielectric heating device which will cook food to a turn in a few seconds. It is known as "megathm" and creates any desired degree of heat throughout a given mass. It is already used by the U.S. army to sterilize food by dielectric heat and will be in the past civilian kitchen.

### Are Women Absent Minded

Are Grimsby women as absent-minded in movie theatres as Detroit women? Valuable as girdles are, two of them have been found abandoned in Detroit cinemas. Perhaps even more amazing than that are the diamond and even wedding rings that the ushers pick up. Can there be films that induce women to throw their wedding rings away? It is quite understandable, of course, why so many odd shoes should be left behind. It is hard to find them in the dark, undignified to stoop, and, in many cases, impossible to stoop. The movie picture managers think that the prize for amnesia should go to the woman who left an ironing board behind. Plenty of ladies purses and also masculine bill-folds, full of money, are forgotten too, but all this flurry of forgetfulness is beneficial to the Salvation Army, Red Cross and Russian Relief. Valuables go to those organizations.

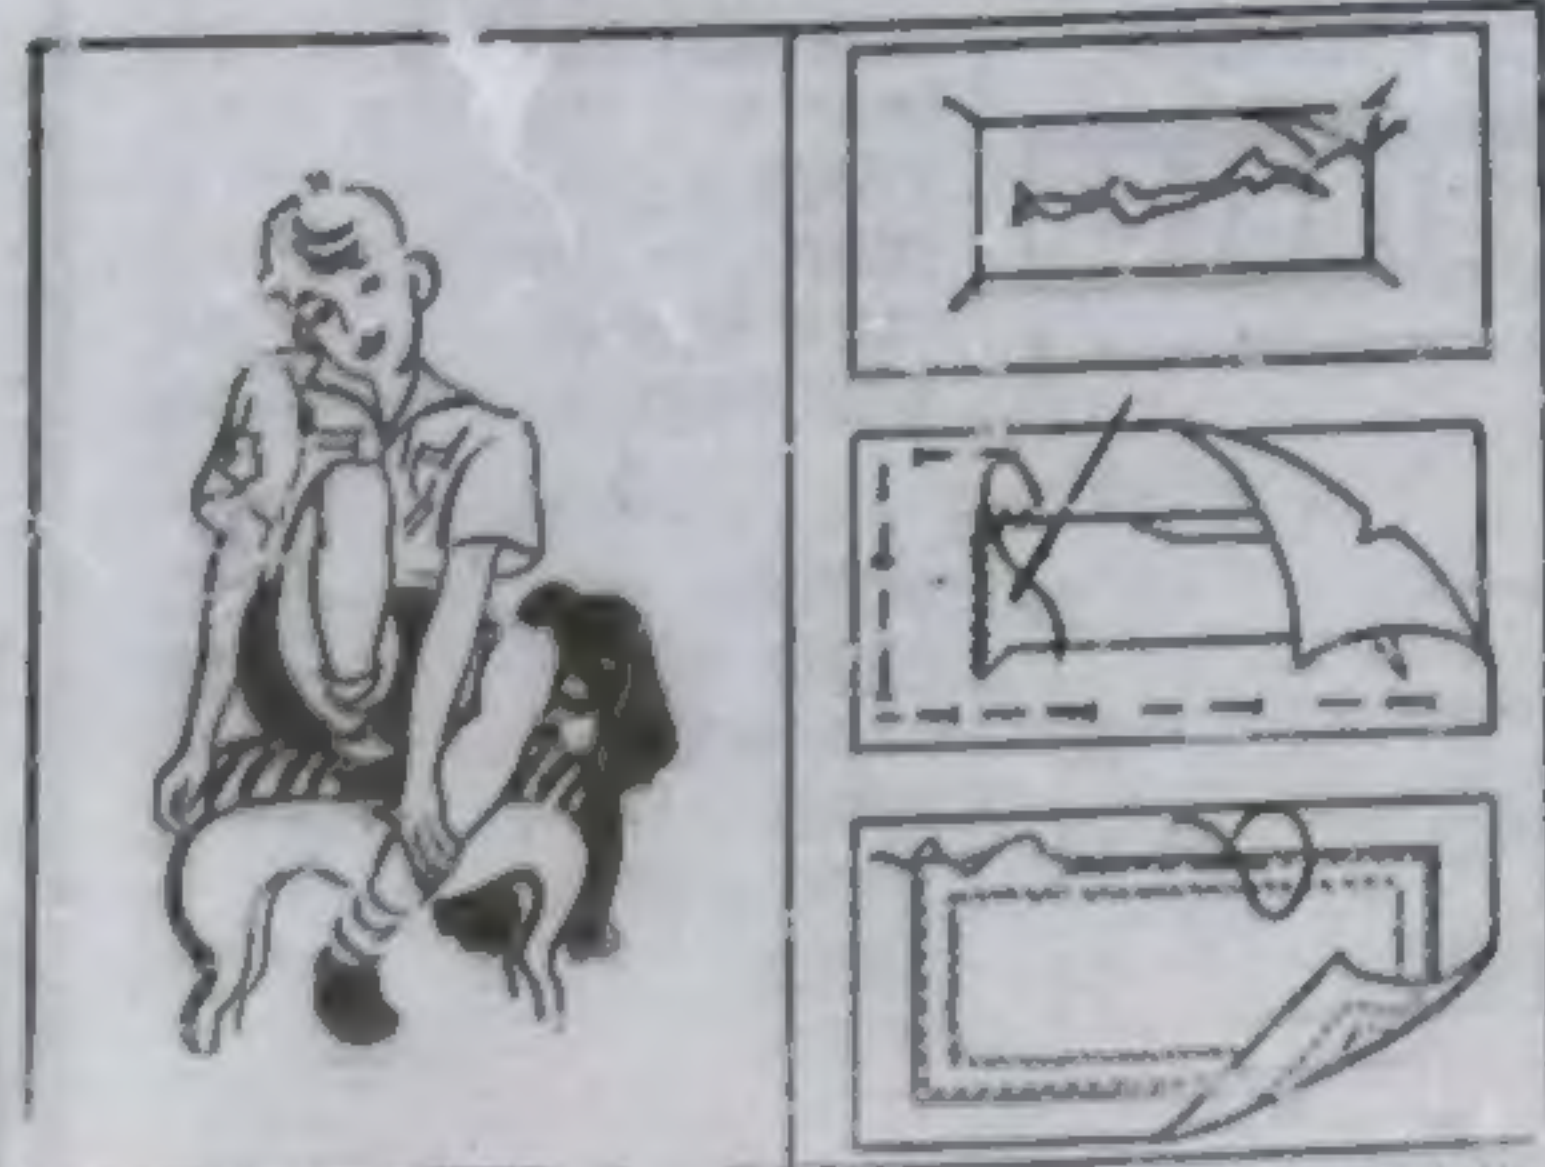

### Beauty Parlors Increase

There are many war casualties, but the beauty trade is not one of them. At a recent convention of hairdressers in Chicago, it was estimated that there has been an increase of 25 per cent. in American women's expenditure last year of \$350,000,000 for beauty treatments. This \$437,500,000 has been taken in by 15 per cent. fewer shops, and in spite of the necessity of using tooth-picks for hairpins. Expenses have been greater, but so have prices. It was said that shops which for \$1 gave five services, shampoo, rinse, wave, manicure and eyebrow arch, now get 50 cents for each item. Permanents which used to cost \$2.95 now have a \$6 minimum. Hair styling has gone up from 75 cents to \$2.50 and more. It is all, of course, because women engaged in war production have more money to spend. The girls in the beauty parlors have more also. The prewar base wage was as low as \$16.50 a week. Now it is close to \$35.

### Air Conditioning Possibilities

In the millennium that is supposed to follow the war, air-conditioning in the average home is one of the possibilities and air cleaning, a form of air conditioning, is another. There is a machine that cleans the air electrically and can remove over 95 per cent. of all the smoke, grease, common dust, bacteria and pollen. The removal of this latter would of course be of the utmost benefit to hay fever sufferers. The working models are about the size of the ordinary kitchen refrigerator. Their principle is simple. The air is drawn by a fan into a compartment in which an electrostatic field has been established. As the air passes through a series of parallel plates which have positive and negative charges, the dirt particles are attracted, even though they are as minute as 1/250,000th of an inch in diameter, with a machine like this which can be sold for \$250, it is said. One dusting a week would be ample for any house and curtains and slip covers would seldom need cleaning. The machine works well in Pittsburgh. Therefore it will work well elsewhere, for Pittsburgh is said to have the world's cleanest atmosphere.

### It's Worth a Patch

The material around a tear is often so thin that a patch is better economy than a darn. Cut the fabric to a square or oblong with the thread and trim off the weak part. Clip the corners so they may be turned under. Pin the patch material under the opening, matching the grain both lengthwise or crosswise. Turn under the raw edges of the hole and hem to the patch. Now turn on the wrong side, turn the edges of this patch under and sew it down to the garment.

## THE MIXING BOWL

By ANNE ALLAN

By Ann Allan

**Hello Homemakers:** This is a week to give thanks for your garden efforts. This weather makes people hanker for salads and for long cool drinks made of fruit juices. It certainly is lucky that there are lots of makings of both in the market now.

Berries, for instance, can be used to make a delicious dice, steeped in water. It is good combined with any of the other stewed strained fruits — rhubarb for instance will add flavor and tartness, or orange juice may sweeten the beverage. Iced tea makes a good base for a fruit drink, too. The tea will make the juice go farther.

There are all kinds of vegetables now that are better in salads than in purees. They not gather an assortment of fresh vegetables — enough for lunch, prepare, chill and serve. For instance, a bowl containing wedges of lettuce, carrot sticks, onion rings, radishes goes well with scrambled eggs, boiled potatoes and some hot corn muffins. Put a tall glass of combination fruit juices beside each plate — and your family won't complain that they are too hot to eat.

**CHERRY PUNCH**  
1 cup water, 1/2 cup sugar, 1 cup cherry juice, 1/2 cup orange juice, 1/2 cup grapefruit juice, 1 quart ginger ale.

Make a syrup of sugar and

water, boil 5 minutes. Cool. Prepare fruit juices; strain. Add syrup and ginger ale or ice water, just before serving. Serve with ice and garnished with cherries.

**SPECIAL SUPPER SALAD**  
1 cup cooked, diced potato, 1/2 cup minced onion, 1/2 cup grated carrot, 1/2 cup minced green pepper, cup string beans, 1 tsp. salt, 1 tsp. chili powder, 2 tbs. vinegar, 3 tbs. salad oil, 1 cup salad croutons, lettuce.

Mix vinegar, seasonings, oil and croutons together. Add to vegetables and toss together. Serve in a bowl lined with lettuce.

**COLOR SALAD**  
1 1/2 cups grated raw carrots, 1 1/2 cups grated raw beets, 1 1/2 cups shredded raw cabbage, 1 1/2 cups minced raw spinach, salad dressing.

Arrange lettuce leaves on individual serving plates and arrange beets and carrots in lightly piled mounds on opposite sides of plates. In between, place mounds of spinach and cabbage. Place slices of seasoned hard cooked egg and sprig of parsley in center. Chill in electric refrigerator. Serve with boiled dressing to which some vegetable juices have been added.

**BOILED SALAD DRESSING**  
1 1/2 cups milk, scalded, 1 cup milk, cold, 1/2 cup sugar, 2 tbs. mustard, 1 1/2 tbs. salt, f.g. pepper

and cayenne, 1/2 cup flour, 1 egg, 1/2 cup vinegar, 1/2 tsp. Worcester-shire sauce, 1 lb. butter.

Mix dry ingredients and combine with cold milk, stirring until smooth. Add slowly to scalded milk in the top of a double boiler

and stir till thickened. Cook 10 minutes, stirring occasionally. Beat eggs, add vinegar and Worcester-shire sauce. Stir egg mixture slowly into milk mixture. Cook and add butter. Store in a glass jar.

## ONE MAN'S INCOME IS ANOTHER MAN'S OUTGO...

If rising prices and costs were allowed to keep pushing each other up, inflation would be unavoidable. That's what inflation is—a panic rise in prices—with money losing its value and confusion everywhere. To prevent inflation, a ceiling has been set on prices and profits,—wages and salaries have been controlled.

If one person demands higher prices—another higher profits—another a higher wage or salary—soon everybody would be making the same demands—demands on everyone else.

Then costs of production could not be controlled.

The ceiling could no longer be held.

Living costs would go up—

and INCOME OUTGO begin their frantic rise.

### FAIRWEATHER-SIMPSON

A very pretty wedding was solemnized by the Rev. Watt at the United Mame on Wednesday, June 28th at 3 p.m., when Isabella McKewen Simpson daughter of Mr. and Mrs. T. Simpson, Brock, Saskatchewan, became the bride of Howard Emerson Fairweather, son of Mr. and Mrs. T. H. Fairweather, Grimsby.

The bride looked charming in a turquoise triple sheer dress and white accessories, wearing a pearl necklace the gift of the groom. She wore a navy blue corsage of Sweetheart Roses.

She was attended by her sister, Miss Myrtle Simpson, who chose a beige sheer dress and white accessories, also wearing a shoulder corsage of Tallinn Roses.

The groom was attended by his brother-in-law James Deamer.

After the reception and admit a shower of rice and confetti and good wishes of their many friends the bride and groom left on a short trip to eastern points.

They have taken up residence at 85 Main St. E., Grimsby.

### CARTNER-EAGLES

On Saturday, June 24, in the Dundas Baptist Church, Rev. W. E. Morrow united in marriage Frances Eagles, niece of Mr. and Mrs. R. J. Seelings, to Mr. Robert Cartner, son of Mr. and Mrs. R. J. Cartner, Hamilton, former Grimsby residents.

The bride, given in marriage by her uncle, was attired in a pink chiffon dress, with inserts of lace, white flowered hat and corsage bouquet of Delight roses and stephanotis. Miss Flora McGillivray was the bride's only attendant.

wearing a navy blue corsage, with matching hat and corsage bouquet of Johanna Hill roses. The best man was Mr. Harry Cartner, brother of the groom.

The reception was later held at the home of the bride, with 25 guests attending. The bride's aunt received, wearing a navy blue figured dress, with white accessories and corsage bouquet of Better Times roses. She was assisted by the groom's aunt, who was present in place of his mother, who was unable to attend. She wore navy blue with white, and corsage bouquet of Dream roses.

The couple left on a short wedding trip, the bride travelling in a powder blue suit with white accessories. Mr. and Mrs. Cartner will reside in Grimsby.

## Filing Her Way To Victory!

It has been estimated that in 1940, one woman in 184 was employed in industry; in December 1943, one in 24. Joining the industrial parade of women into vital war work, this young Canadian can handle a file as deftly as any man in turning out parts in an airplane factory. Not long ago, she looked on a file as something used solely to manicure her nails.

## Obituary

## EDWARD W. NUTLEY

Edward William Nutley died Wednesday at the residence of his parents, Mr. and Mrs. Charles Nutley, Lake avenue, Stoney Creek. The deceased was born in Hamilton and was in his 22nd year. Surviving besides his parents are a brother, Russell, at home; and his grandparents, Mr. and Mrs. William Southward, of Beamsville, and Mr. and Mrs. L. E. Nutley, of Hamilton.

## MRS. LUCY SINGER

The funeral of Mrs. Lucy Singer was held Friday afternoon from the residence of her niece, Mrs. Lloyd Pettit, 200 Main St. West. Rev. J. A. Ballard conducted the service in the home and at the graveside, interment being in Queen's Lawn Cemetery. The pallbearers were Wm. Nees, Ex-Mayor Arthur Hewson, G. G. Bourne, B. W. Shantz, J. Budge, and T. R. Hunter.

## JOHN McCLELLAND

John McClelland, retired fruit-grower, passed away Tuesday at his home, No. 8 Highway east, North Grimsby township. In his 84th year, he was born at Bally Croy, Ontario, on May 20, 1861. For many years he conducted a general merchandise business at Palgrave, Ont., later going to California and coming to Grimsby 18 years ago to engage in fruit growing. He was a member of Trinity United Church.

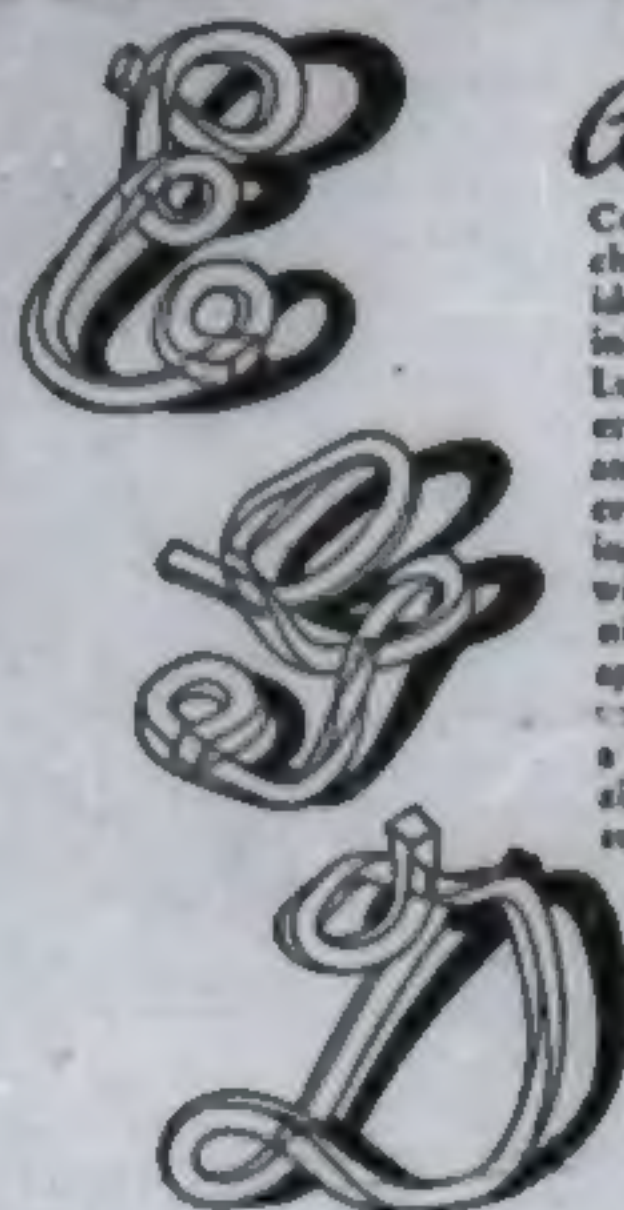

Surviving are his wife, the former Lulu Hearn; three sons and four daughters: Edward and John McClelland, Toronto; Cpl. Robert J. McClelland, U.S. Army Air Force, Clovis, New Mexico; Mrs. P. A. Clovis, New Mexico; Mrs. T. A. Hutchinson, Taylor and Mrs. Arthur Wood, both of Milton; Mrs. Arthur Wood, Tottenham, and Mrs. R. V. Conover, Brampton.

Rev. W. J. Watt conducted a service at the Stonehouse Funeral Home last evening and interment is taking place this afternoon at Palgrave, services being conducted by Rev. Charles Hearn, cousin of the deceased.

Another post-war problem will be making the women satisfied with the kitchen after having worked in a war plant.

## 'CAMMYS' MAIL BAG

Dear Friends:

Thank you all very much indeed  
for your very welcomed gift of  
smokes. They are the best a fel-  
low here could wish for. Best of  
luck. I remain,

Yours sincerely,  
Sgt. W. J. Roeder.

Dear Mr. Millard:

Thank you very much for the  
cigarettes recently received. I cer-  
tainly appreciate the good work  
in this respect that the Grimsby  
Chamber of Commerce is doing.  
Best regards to all.

G. A. Silver.

Received the cigarettes you sent  
and am very glad to have them. I  
want to thank you very much for  
sending them.

I remain,  
A. M. Marlowe.

Thanks for cigarettes. They  
sure come at the right time. We  
are now under canvas. It takes my  
mind back to Niagara-on-the-Lake  
in 1939 and Camp Borden in 1940.  
Best regards to you and members  
of the Grimsby Chamber of Com-  
merce, also the citizens of Grimsby  
who help to make the gifts pos-  
sible.

Yours sincerely,  
Pte. W. E. Farrow.

Parcel cigarettes arrived to-day  
in good shape. Real Canadian  
smokes fresh from Canada are  
worth more than can be expressed  
in mere dollars and cents. At no  
time have such things been taken  
for granted. It's easier to smile,  
to joke, to hope. The job is once  
more the thing that comes first in  
interest. Your gesture is a vital  
munition of war. Thank God for  
the "Home-Front".

Sincerely,  
G. Taylor-Munro.

Mr. Millard:  
Received the 300 cigarettes that  
were sent me and thanks a lot. The  
Canadian cigarettes are a real  
pleasure to receive at any time.  
Once again thanks.

Pte. Willis Southward.

Dear Mr. Millard:

Once again I send along many  
thanks for the carton of cigarettes  
which arrived last week. You and  
your fund are certainly doing a  
fine job of looking after the boys  
on the many fronts by keeping  
them supplied with smokes. Things  
are going along well and having  
fine weather.

Sincerely,  
Glen Pettit

Sir:  
Many thanks for cigarettes and  
convey my thanks also to the  
members of the Chamber and to  
all in Grimsby for their thought-  
fulness.

This package must have gone  
astray somewhere, but as the old  
saying goes 'better late than  
never'.

The best of luck to you all and  
one day soon we will be back in  
that grand little town. Cheerio for  
now.

Dave Copeland.

Dear Sirs:  
Received your cigarettes today.  
and I thank you very much. They  
are appreciated very much over  
here. Everything is going fine  
with me. I hope things are the  
same around Grimsby. Thanks  
again for the cigarettes.

Yours truly,  
R. E. Blaise.

Many thanks for the smokes. We  
very much appreciate the concern  
you have shown.

Spr. Wm. Twocock.

Sir:  
Received your most welcomed  
gift of cigarettes which are very  
much appreciated. Cigarettes are  
always appreciated by us over  
here. Once again thanks a mil-  
lion.

L/Cpl. Boucher.

Fello C. D.:  
Received your 300 Great Caps.  
Thanks a million. There appre-  
ciated more than you'll ever know.  
As ever,

Doug. Boyd.

Dear Sir:  
Received cigarettes. Appreciat-  
ed very much.

E. J. Emaley.

Sir:  
Just received two boxes of your  
cigarettes. Thanks a million. They  
are very much appreciated. Keep  
up the good work.

Bill Gledhill.

Dear Chairman:  
Received another carton of cig-  
arettes on April 17, posted in Mon-  
treal March 15th. Many thanks to  
the people of Grimsby and your-

self. We hope it won't be nec-  
essary to send cigarettes very much  
longer for we would all like to see  
this war finished.

Best regards,

## IMPORTED FRUIT PRICES CONTROLLED

A recent Wartime Prices and  
Trade Board order controls the  
price of imported peaches, pears  
and plums. The selling price in  
Canada will be based on a limited  
mark-up over the cost of bringing  
the fruit from the United States.  
Last year there was no price con-  
trol on these fruits until August

18, when they came under the cel-  
ling price for Canadian-grown  
fruit.

This new order is designed to  
bring in more supplies for the ear-  
ly fruit market and regulate the  
prices for consumers.

## EXPLANATION RE VALID DATES TEA-COFFEE

"Tea-coffee coupons become  
valid regularly on the second and  
fourth Thursdays of each month,"  
reminds F. C. Butt, Ontario ration-  
ing superintendent, answering

queries about the three-week  
spread between coupon 35 which  
became valid June 22 and coupon  
36 which becomes good July 13.

Bearing this occurrence in mind,  
Mr. Butt recommends that con-  
sumers plan their usage of tea  
and coffee a little more carefully  
during the three-week period in  
order to ease out the ration.

The commuter nowadays has a  
standing in his community.

"What has become of the 10-cent  
sandwich?" asks a letter writer.  
It's being sold for a quarter now.

## Army's Biggest "General Store"

Center of a vast war effort, Longue Pointe, Que., Ordnance De-  
pot, shown above, is one of the key supply depots of the United Na-  
tions. One of the largest clearing houses of its kind, it pours an un-  
ceasing stream of war supplies from Canadian and U.S. plants, to  
battlefronts throughout the world, including China and Russia. The  
Depot has 22 miles of railway, covers 200 acres of ground and absorbs  
4,000 workers. It handles everything from small optical instruments  
to the latest Canadian-made tanks. The above pictures show: top, a  
long line of Canadian-made tanks in one of the storage yards. Lower,  
a bird's-eye view of part of the railway yards. The crates contain ve-  
hicles ready for shipment to the United Nations.—(Canadian Army

## Happier Days Ahead!

Your post-war buses aren't built yet, but  
they'll be just as smart as the one in the  
picture.

Right now, Gray Coach Lines is working all  
out for Victory—transporting men and women  
of the armed services, taking war workers to  
work and serving essential civilian travel.  
However, we haven't forgotten our regular

passengers. You are helping us now by  
being patient and considerate while vital  
war jobs have to be done.

So here is a glimpse of what is already  
being planned for you. Let us all continue  
working together for Victory—and for the  
happier days ahead, when there'll be a fleet  
of smart new buses on the road to serve you.

# LOCH SLOY AT WINONA

(An appreciation, by a guest,

Two tall fir trees stand like sentinels on guard, in front of this lovely old house. Near by, is a beautiful buttonwood tree. Its trunk is mottled and its limbs have been torn by some freak of wind. But the buttonwood tree stands calm and serene and welcomes all guests as they come up the driveway. Two spruce hedges guard the lawn and driveway and the latter is bordered by lily of the valley and iris. Within a few yards is a huge locust tree. Its stalwart trunk is deeply creviced, giving character, developed by buffeting the winds. It, too, stands calm and firm, just dripping with blossoms and casting its long shadows across the green velvet of the lawn, beyond the yellow briar bush, and across the other driveway.

Beyond this part of the driveway, the eye looks deep into a

cherry orchard with its row after row of cherry trees, taking nourishment from the well-ploughed reddish-brown earth. East the reader thinks beauty is all in the east, let the eye wander up and look northward, over a cherry and peach orchard and beyond that the lake. But again turn and look south along the driveway, out at one the road, beyond a row of silver birches that guard one side of the highway and on to the trees that climb the escarpment, green all the way. To have the finest view one must climb to the top, not so easy to do. Instead will the reader move westward with me across the verandah and gaze long and quietly into the west.

It cannot all be absorbed at once. In the foreground the eye looks into a large cherry and peach orchard, and over the garden, away in the distance, the escarpment curves downwards, seemingly aiming to meet the shore of the lake and in between is beauty everywhere. Orchards and orchards with a mere sprinkling of houses, either brick or white in colour. Just where the escarpment would seem to meet the lake, the sun sets and casts its glorious riot of colours along the lake shore and away to the heights. Usually clouds drift about in this sea of loveliness, with its long, long stream of myriad colours which old Sol leaves behind him as he slowly sinks out of sight. The whole vista changes, almost hourly. Even in the midst of mist or even rain this long view has beauty. "He that hath eyes to see, let him see."

In the morning the sun begins his rounds usually accompanied by the song of birds. The only jarring note in this world of beauty is the occasional train, shrieking its way along. Otherwise the scene is one of ever-changing, continuous beauty, radiating serenity and calmness. The peacefulness of it all is here to welcome those who come, either with discouraged spirits or weary bodies. When first my eye beheld it the blossoms were just coming to their best and I lived and watched in fairy land—a sea of soft pink and white.

The artist comes and puts on canvas the beauty he sees, the poet comes and puts into words what appeals to him but to me fully to appreciate it all, one must live in it, in quietness, that absorbs into one's very soul.

Beauty often sinks too deep to be dug up and handled but in quietness it does its work. Such is Loch Sloy to the tired and to the weary. This short sketch would not be complete without mention of the one who makes it possible for us to enjoy this loveliness of nature. As the moon beams down on all the loveliness and quietness, I suspect she is still at her desk, puzzled to know where to put all those who wish to enjoy this spot. Her brown eyes miss nothing, her keen mind analyses correctly and over and above all her qualities shines friendliness that comes from a heart of gold. Her happiness comes from helping others and it is that which gives her the radiance of personality to guide the activities of this lovely, nearly 100 year old, house. I fancy in her late vigils she is accompanied in spirit with ghosts of the past who give inspiration and encouragement, fortified by faith in the Power that rules the world.

Outwardly her sole companion probably will be a black cat, answering to the name of Dusty. He shows his affection where he wills and asserts his independence by claiming a certain chair as his special. Beware how you disturb him! His love for his mistress shines as he sits on her desk aiding up each and all. Like all his race, he does not talk about the guests and I, a mere human, follow this same restraint.

## F COUPONS EXCHANGEABLE FOR PRESERVES

Canning Sugar Coupon '76 to '78 become valid on July 6, after which date they may be used for the purchase of sugar for home canning at the rate of one pound per coupon.

Housewives who prefer to buy commercial jams and jellies, honey, maple syrup, tinned fruits or any of the other items for which preserves coupons must be surrendered, they may exchange F coupons for preserves coupons at all Local Ration Boards. Each F coupon is good for one preserves coupon.

You can't expect everything to run smoothly in the post-war world as they will again start manufacturing alarm clocks.

An old-timer is the one who can recall when as a boy he liked to turn the crank on the ice cream freezer.

## Pleasure Trippers

Crowded coaches, men and women of the armed forces standing in the aisles and leaning against the seats: these are familiar sights on Canadian railways these days. After four and a half years of war, and when all facilities are strained to provide transportation for the invasion tools of war, unessential travel should be off the books. Passenger trains everywhere are overtaxed enough now with essential travellers, without having 'pleasure trippers' tagging along as well.

## SHOPPERS ASKED TO SAVE PAPER

Retailers and their customers are urged by the Prices Board to use paper as sparingly as possible in the packaging of parcels. While wrapping paper is necessary for many articles, there are

others, such as those already packaged, which do not require it and where its use becomes waste.

Wherever it is possible to eliminate wrapping, the Board asks that it should be done so that limited supplies of paper may be conserved for essential uses.

Lions Carnival, July 12 - 14.  
Firemen's Carnival, August 2 & 3.  
Farmers over the hill are haying.  
St. Joseph's Garden Party, Aug. 12 & 13.  
Township council meets Saturday afternoon.  
Town council meets next Wednesday night.  
Next Wednesday is "The Glorious Twelfth."  
Raspberries are on the market. So are gooseberries.  
There will not be a blood clinic in Grimsby this month.  
Eaton Order Office has been brightened with a coat of paint.  
Strawberries are no more and cherries will not be here long either.  
Grimsby lawn bowlers failed to get in the money at the big tournament in Niagara Falls on the holiday.  
Grimsby Natural Gas Co. have commenced drilling operations for several new wells to increase present supplies.  
West End Motors are getting swanky. A new coat of red and white paint improves the appearance of this service station greatly.  
It pays to advertise in The Independent. A local resident advertised a radio for sale. Within 36 hours of the paper leaving the press he had 36 replies to his ad.  
Dominion Day was quiet in town. Traffic on No. 8 was fair but very heavy on the Queen Elizabeth Way. Village Inn reports a very heavy weekend in rooms and meals.

A visitor to town on the Fourth of July was Fred Burke of Buffalo, who before the last war worked as a tinmith for Jas. A. Wray and then later started a business of his own in Beamsville. He is now a resident of Buffalo, N.Y.

Chief Turner put the fear of the Lord in a few of the truck drivers of produce, etc., on Main street on Friday afternoon when they persisted in tying up traffic and cross walks with their vehicles. Pre-holiday traffic was heavy and the truckers were just tying it up in knots until the Chief appeared on the scene.

Charlie Norman returned from the wilderness haunts of Geo. and Helen Kamnacher on Tuesday after a week of fishing. He says that Little Whizzer is the greatest fisherman in the North country and even the Indians look at him in awe. First morning they were in camp they went out in a boat and in exactly 14 minutes Whizzer had the boat full of small mouthed Bass.

Mrs. W. H. Groce, recently has had two very interesting letters from Corp. Earl Luey, one of the four Luey boys overseas, who reports himself in good health and spirits and at time of writing was waiting for D Day. Before enlisting he was Asst.-Scoutmaster of Grimsby troop. She also hears quite regularly from A.C. 2 Peter Fitkowski, now stationed at Regina. Pete is one of several children who lived on Ontario street some years ago and were left orphans. Their brother Joe is in the navy and it is understood that Steve is overseas with the R.C.A.F.

## Cherry Prices

Minimum prices of 10 cents per pound for sour cherries and 15 cents per pound for sweet cherries for processing were set last week by the Farm Products Control Board at Queen's Park for 1944 crop. The prices are based on the fact that, due to poor weather conditions during the blossom and pollination period, the total 1944 sour cherry crop is now officially estimated at 16 per cent below the relatively small 1943 crop of 2,285 tons, compared with a normal crop of some 5,250 tons.

High School And Cloverley Camps Now Open — More Girls To Come — Some From Quebec.

One hundred and fifty girls arrived in Grimsby on Monday afternoon and evening to spend the next few weeks at two Farm Service Force camps which opened for the season.

One hundred of the girls went to the Grimsby high school camp and the remaining fifty went to Cloverley, a new camp on No. 8 highway, two miles west of town. Nixon Hall camp, which opened a month ago, has forty girls, making a total of 260 now at Grimsby.

Included among the girls are a number from the province of Quebec who are to learn to speak English as well as assist in fruit farm work. Fourteen of the Quebec girls are at the high school camp and one of the camp assistants there is a Quebec girl who speaks both French and English. Remainder of the girls come from all parts of Ontario, including several from Hamilton.

Camp director at the high school is Miss Margaret Wishart, of Oakville, and the labour secretary is Miss Catherine Jefferson, of Clinton. At Cloverley, Miss Georgia Brown, Toronto, is camp director, and Miss Ruth Bradshaw, Toronto, is labour secretary. The director at Nixon Hall is Mrs. Blanche Ketcheson, of Kingston.

## Here's The Answer

Here is the answer to the date conundrum on the front page. It is merely a mathematical catch (Couscous) was born in 1882, took office in 1932, years in office 11, present age 61. Add the figures and divide it by two and you get 1944. It did the same for Hitler, Churchill and Stalin. Naturally it would do the same for anybody. It is simply your age added to the year of taking office and to the years of office. We are indebted to Thomas Richard Henry of The Evening Telegram for this bit of mathematical juggling and we bet you didn't figure it out the first time. Neither did we.

HISTORICAL COMMITTEE  
NAMED

The Directors of the Grimsby Beach Cottagers' Association has sponsored an Historical Committee naming P. H. Davidson and Albert Waite as its first two members with power to add to its numbers.

They are to contact any person having knowledge of documents or souvenirs, with records of early settlers as dates when buildings were erected.

It is hoped that these may be preserved in a museum for safe keeping when a suitable building can be obtained.

The co-operation of all cottagers and friends will be greatly appreciated.

## When The Paper Doesn't Come

My father says the paper he reads ain't put up right;  
He finds a lot of fault, too, he does, perusal' it all night;  
He says there ain't a single thing in it worth to read,  
And that it doesn't print the kind of stuff the people need;  
He tosses it aside, and says it's strictly on the bum;  
But you ought to hear him holler when the paper doesn't come.

He reads about the wedding, and he snorts like all getout;  
He reads the social doin's with a most derisive shout;  
He says they make the papers for the women folks alone;  
He'll read about the parties, and he'll fume and fret and groan;  
He says of information it doesn't have a crumb—  
But you ought to hear him holler when the paper doesn't come.

He is always first to grab it, and reads it plumb clean through.  
He doesn't miss an item, or a want ad—tho' it is true;  
He says they don't know what we want, the darn newspaper guys;  
"I'm going to take a day some time and go and put 'em wise;  
"Sometimes it seems as though they must be deaf and blind and dumb."  
But you ought to hear him holler when the paper doesn't come.
